Introduction

The handbook “Sphecid Wasps of the World. A generic Revision”, by R. M. Bohart and A. S. Menke, 1976, University of California Press, Berkeley etc., p. ix, 695, commonly known as the Big Blue Book (BBB), is the most frequently used book on the worldwide taxonomy of the Sphecidae (Hymenoptera) down to subfamilies, tribes, and genera.

A book of this size unavoidable contains mistakes. Since its publication a long row of errata and omissions were published in a variety of articles: see references.

A user of the Big Blue Book who wishes to verify names, data, etc. has to go through all these articles. To avoid this, the underlaying publication gives a summing up of all corrections, errata, and omissions arranged to number of pages.

Thanks are due to Dr W. J. Pulawski for his enormous amount of work correcting the “Sphecid Wasps of the World”. Also thanks to him this publication could be brought up to date to December 1997.

The author will be grateful to receive any further errata and omissions found in the Big Blue Book as well as any remarks about this recapitulative list.

GENUS GROUP TAXA NOT INCLUDED IN BOHART AND MENKE, 1976

*Acanthocaenus* Fritz and Toro, 1977: 35. Type species: *Heliocaenus tridens* Brêthes, 1913, by original designation and monotypy.

* Araucastigma* Finnemore, 1995: 222. Type species: *Stigmus glabratu s* Kohl, 1905, by original designation.

*Bishamon* Tsuneki, 1983b: 17, as subgenus of *Dasyproctus*. Type species: *Dasyproctus guadalensis* Tsuneki, 1983, by original designation and monotypy.

*Corenias* Tsuneki, 1974: 369, as subgenus of *Diodontus*. Type species *Diodontus chosenensis* Tsuneki, 1974, by original designation and monotypy.

*Crohapalum* Tsuneki, 1984f: 5. Type species: *Crohapalum cornicum* Tsuneki, 1984, by original designation and monotypy.

*Ebisus* Tsuneki, 1983b: 2, as subgenus of *Podagritus*. Type species: *Podagritus toxopeusi* Tsuneki, 1983, by original designation and monotypy.

*Hensentia* Pagliano and Scaramozzino, 1990: 5. Replacement name for *Prosceliphron* van der Vecht, 1968, nec *Prosceliphron* Frenguelli, 1946. (may be unnecessary according to Menke, 1990c: 29).

Metactennius Tsuneki, 1984b: 34, as subgenus of Ectennius. Type species: Ectennius apo Tsuneki, 1984, by original designation and monotypy.

Miscostethus Lomholt, 1985: 134, as subgenus of Saliostethus. Type species: Saliostethus albonacularis Lomholt, 1985, by original designation and monotypy.

Notorhopalum Leclercq, 1979b: 354, as subgenus of Rhopalum. Type species: Rhopalum carnegiacum Leclercq, 1979, by original designation and monotypy.

Orthocracbro Tsuneki, 1990a: 87, as subgenus of Crossocerus. Type species: Crossocerus hirashimai Tsuneki, 1966, by original designation and monotypy.

Othyreus Marshakov, 1977: 858, as subgenus of Crabro. Type species Crabro tricolor Gussakovskij, by original designation and monotypy.

Papuacrabro Tsuneki, 1963h: 22, as subgenus of Ectennius. Type species Ectennius papuanus Tsuneki, 1983, by original designation and monotypy.

Perissostigmus Krombein, 1984c: 18, as subgenus of Carinostigmus. Type species: Carinostigmus buchei Krombein, by original designation and monotypy.

Pitaliris Tsuneki, 1982e: 26, as subgenus of Liris. Type species: Cratolarra pitamawa Rohwer, 1916, by original designation.

Spadico crabro Tsuneki, 1990b: 100. Type species: Crabronitobei Matsumura, 1912, by original designation and monotypy.

Succinoecus Budrys, 1993: 49. Type species: Succinoecus litiunicus Budrys, by original designation and monotypy.

Thao Tsuneki, 1982e: 33, as subgenus of Crossocerus. Type species: Crossocerus nitidicorpus Tsuneki, 1968, by original designation and monotypy.

Tzustigmus Finnamore, 1995: 211. Type species Tzustigmus syam Finnamore, 1995, by original designation.

Yambali Tsuneki, 1990a: 90, as subgenus of Crossocerus. Type species: Crossocerus minor Tsuneki, 1990, by original designation and monotypy.
